### **Mouth Guard Release**

The risk of serious injury to the mouth is inherent in virtually any sport. Therefore, it is extremely important for you/your child to wear a mouth guard while participating, particularly in a collision sport. Bocage Orthodontics urges all participants in sports to wear a mouth guard when playing or practicing, to reduce the degree of injury from traumatic blows to the mouth.

As part of an educational program to encourage participants to understand the benefits of wearing a mouth guard, Bocage Orthodontics has mouth guards available that are professionally fitted for braces to ensure long-lasting wear.

The wearing of a mouth guard of any kind cannot prevent injuries from occurring.

However, in most cases it may help reduce the degree of severity of injuries.

*I have read and understand the above information. By my signature below, I release Bocage Orthodontics from all liability of any kind resulting from sporting injuries, including aspiration, to me/my child and/or the provision of the mouth guard, and waive all claims related thereto.*
